

## MILITIA NEARLY READY TO MOVE

Exchange of Condemned  
Equipment for New All that  
Delays Departure.

Although the War Department orders for the District troops to move as soon as equipped had not been received up to a late hour last night, Capt. Horace Hobbs, mustering officer, said that he expected to recommend to Maj. Gen. Leonard Wood on Wednesday or Thursday that the troops be started for Bismarck the latter part of the week. This means that the Third Infantry, Battery A and Troop A will probably be moved on either Saturday or Monday.

Even if the new orders are not received, the troops can now be sent to the border as every organization is up to or above minimum strength. The Third Infantry, due to break recruiting, has about 320 serviceable men, and expects many more in the few days intervening before departure.

The exchange of condemned equipment for new is now delaying the regiment, and prevented Capt. Hobbs from reporting it ready last night. An officer from the inspector general's office will check the condemned articles today, and Capt. W. H. Chase, of the Supply Company, will immediately draw the new equipment from the storehouse at Fort Myer and issue it to the companies. When this is done Capt. Hobbs will send the telegram to Governors Island that will bring the moving orders. The railroad will then require three days' notice before the troops can be moved.

Troop A has not yet received the minor pieces of horse equipment that is delaying it, but it is making rapid strides to reach war strength of eighty-eight men. Six recruits were secured yesterday, and the troop totals eighty men. Capt. J. H. Washburn hopes that the command will leave at war strength.

## OO! IT WAS CHILLY AT CAMP GOOD WILL

Children Complain of Tingling Fingers  
and Toes—No Wading in  
Rock Creek.

It was cold at Camp Good Will yesterday. The little tots got up in the morning and came running to Miss Margaret Simpson, who is "mother" to them all, and told stories of how cold it had been during the night.

"My fingers and toes froze," said one little fellow, who declared that he could not move them when he first awoke.

Extra blankets were available at the camp, however, and last night and Sunday night were spent with all the children comfortable, even if a little chilly.

There was no wading yesterday in Rock Creek for the children because of the change in weather, but the children were warmed up by a paper canoe. The boys under the leadership of Carlton Taylor were the foxes, and led the hounds, represented by the girls, under Miss Bessie Lindeach and Miss Dorothy Jacobs, a merry chase over the hills of the park.

## Acid Stomachs Are Dangerous

Nine-tenths of All Stomach Trouble  
Due to Acidity, Says New York  
Physician.

A well-known New York physician who has made a special study of stomach ailments, has issued a statement that nearly all intestinal trouble, as well as many cases of the ailment known as acidity, commonly termed sour stomach or heartburn, which not only irritates and inflames the delicate lining of the stomach, but may often cause gastritis and dangerous stomach ulcers.

Neglect, he says, leads to a chronic super-acidity, commonly mistaken for indigestion, and is the principal cause for the indiscriminate swallowing of the various so-called patent digestive aids which bring only temporary and false relief.

In an acid condition of the stomach no artificial digestants whatever should be employed, as these are likely to merely pass the burning acid on into the intestines, causing serious trouble there. Instead, he recommends the use of some simple, harmless and inexpensive antacid such as a teaspoonful of bicarbonate of soda, taken with a little hot or cold water right after meals or whenever distress is felt.

This simple remedy in just a few seconds from its entering the stomach neutralizes or sweetens all the acid contents. Dissolve the dangerous acidity and there will be no need for medicine, as all symptoms of indigestion will promptly cease. Sufferers from acidity, sour stomach or indigestion should get a few ounces of the pure bicarbonate of soda from the drugist and give this treatment a trial. In view, however, of the many varieties of magnesium used for various purposes, stomach sufferers should be careful to get it only in the bicarbonate form (either powder or tablets) and in a sealed package to insure its purity.—Adv.

## SKIN FROM BODY TO GIRL'S SCALP

Doctor to Repeat Successful  
Operation of Four  
Years Ago.

Miss Virginia Weedon, 26, who was scalped by having her hair caught in a revolving motor boat shaft just after rescue from drowning in the Potomac River near Occoquan Bay on Sunday afternoon, will be treated by Dr. Charles Stanley White, the physician who saved Miss Alice Houghton, victim of a similar accident in 1912. Miss Weedon is in a critical condition at the George Washington University Hospital, where she was taken yesterday morning.

An examination made by Dr. White yesterday showed that the scalp had been completely torn off from the back of the neck to the eyebrows. He will follow the same method of treatment that he used in Miss Houghton's case, grafting skin from the girl's own body. He turned down numerous offers of skin from the girl's friends, as grafting of other skin was ruled in the Houghton case and found unsuccessful.

If the patient responds to the treatment it will be at least two years before she can be called permanently recovered. It is expected that a long struggle for life will be waged, and in event of recovery the girl will be disfigured for life.

The case of Miss Houghton four years ago was the first of its kind in the country to be treated successfully, and Dr. White believes that he can make the skin grafting complete in the case of Miss Weedon as he did for Miss Houghton.

Both accidents were similar, each being caused by the loosened hair being caught in a revolving mechanism. Miss Houghton was scalped by an electric adding machine in the Census Bureau. Miss Weedon's accident happened Sunday afternoon. She was in swimming and became endangered by the undertow in the river. Fred Woodward in a motorboat rescued her, and when she was lifted into the boat, unconscious, with her hair disarranged, her hair was caught in the whirling power shaft. Immediately after the accident, the patient was taken in the motorboat thirty miles to Washington. Miss Weedon is the daughter of Mrs. Hood Weedon, of Occoquan, Va.

## RACING CARS TO SHOW AT BENNING ON SEPT. 4

Labor Day Meet for Autos and Motor-  
cycles Will Offer Great Pro-  
gram of Speed.

A meeting of local and out-of-town motor enthusiasts was held at the Washington Loan and Trust Building last night to arrange for the Labor Day Automobile Meet to be held at Benning Race Track on September 4.

Local and out-of-town entries for thrilling automobile races have been promised. Eye See Bee, Mercers and National cars will be entered, with a late type of Peugeot, 16-valve racing car of foreign fame.

Two motorcycle races, one for local machines, and one of longer distance for factory riders, will be held. A roadster, touring and stock-pleasure car race is also planned.

A secret-time automobile run, to be participated in by Baltimore auto owners, will be run from a Baltimore newspaper office to the race track.

Boy Scouts will enter a drill for a prize of \$50 offered by the American Auto Racing Association.

Entry blanks and particulars can be secured from the American Auto Racing Association, office of the National Motor Speedway Association, Washington Loan and Trust Building.

## BERWIN CITIZENS OPEN AN ALL-WEEK CARNIVAL

The carnival of the Berwin Citizens' Association, which will last all week, opened last night with a merry whirl of gaiety. Everybody was buying refreshments, candy, sandwiches and popcorn. The open air dancing floor that has been erected especially for the carnival was well patronized owing to the cool weather.

E. J. Taylor, chairman of the committee in charge of the festivities, announced several hundred dollars in receipts. The proceeds will go to the improvement of the streets and walks of the town.

Friday night there will be a grand cake-walk with prizes for the winners. Saturday will be featured by a masquerade and the presence of a brass band.

Adjustable pontoons, intended to make any small boat unsinkable, have been patented in England by an Australian.

## COURT-MARTIAL FOR SLAYER OF SPAULDING

Victim of Accidental Shooting Will  
Be Buried Tomorrow with  
Military Honors.

The findings of the court of inquiry that investigated the fatal shooting of Private James Spaulding, of Company D, have been reported to Brig. Gen. William E. Harvey, and he announced yesterday that it was found that Harold B. Wesley, the sentry from Company F, should be held for court-martial for the accidental killing of Spaulding.

Gen. Harvey said that Wesley would be tried shortly at court-martial for manslaughter. The maximum sentence, if convicted, is dishonorable discharge, with loss of pay and allowances, and three years' confinement.

The comrades of Spaulding and the men throughout the regiment are raising a fund for flowers for his funeral tomorrow at 9 o'clock from 1022 Four-and-a-half street south-west. Company D, in command of Capt. Tait, will be the military escort, and burial will be made in Mount Olivet Cemetery with Catholic services. The quartermaster at Fort Myer will furnish a caisson, a firing squad will fire three volleys over the grave, and a bugler will sound "taps."

## UP TO DATE IN STYLES.

Washington "Only Few Hours Behind New York."

"When it comes to style, Washington is only a few hours behind New York." However, it is doubtful if many Washingtonians realize to what extent this oft-repeated quotation is correct.

That such is the case was impressed upon a representative of the advertising staff of The Washington Herald yesterday. Upon calling at the Leverton store for this week's advertising announcement, he learned that Mr. J. L. Leverton, the proprietor, was in New York buying suits and coats for the fall season. Further inquiry brought the response that J. W. Leverton, the manager, was in the same city buying furs. It was still further learned that Mrs. Mills, the head of the waist department, and Mrs. Wilson, the buyer of kowns, and Mrs. Adams, in charge of the millinery department, were also in New York on a fall buying trip.

Leverton's New York headquarters during the buying season is at the Hotel Astor.

For years an almost unsalable product, New Zealand hemp has leaped into popularity and is now a great industry.

## HUGHES DECLARES WAR IS SHIELDING WILSON

CONTINUED FROM PAGE ONE.

One of the points which called for the greatest applause was his statement: "The only chance the administration had to carry this election is because the present war in Europe has saved it a demonstration of its inefficiency."

Another point accorded a demonstration, was his statement that the Democrats are claiming a prosperity which is due to that war.

"I wonder if they think the Democratic party and the European war are synonymous?" he asked.

"I know that you take a deep interest in the campaign," he added at another place.

"I speak to the women here as I speak to the men. I didn't come here to make a different kind of a political speech. I know you are solicitous about the welfare of the country."

At intervals while he spoke the plaintive wail of an infant was heard in the upper gallery but the mother and child remained to the end.

While attesting his personal belief in the Federal amendment as a means of securing immediate suffrage for women, Hughes pointed out that the Republican platform does not declare for that method, and at no time during his address did he pledge himself to work if elected President, for the amendment.

## For Republican Women.

Hughes spoke in the same hall where Roosevelt addressed a great gathering of women Progressives in the campaign of 1912. On that occasion the audience was so great that another theater had to be secured to care for the overflow. Today's meeting, however, was for Republican women only.

Following the meeting, Mr. and Mrs. Hughes were tendered a reception in the Davenport Hotel.

This morning after an automobile ride through the city the candidate was taken by motor to Couer d'Alene, forty miles away in Idaho where he addressed a meeting of 3,000 in the City Park. Returning to Spokane, he addressed the women's meeting and after the reception rested until this evening when he spoke at a big open-air meeting in the Stadium. He left here at 9:45 p. m. for Tacoma, where he will speak in the early afternoon of tomorrow. He will finish the day at Seattle.

In his speech to the women he said in part:

"This is the most interesting political meeting I ever addressed. It impresses me profoundly with the truth of which I said a few days ago in New York—that it is perfectly idle to suppose that the women in this country will be denied the right to vote."

## Is Deeply Gratified.

"I was deeply gratified to find that the right of women to vote was recognized by the Republican party platform. That platform did not say anything in respect to the proposed Federal amendment. In my address in answer to the notification of my nomination, I confined myself to a statement with respect to the right apart from the particular method of obtaining it.

"It seemed to me that if we contemplated economic conditions in this country, the presence of woman in gainful occupations, her opportunities constantly widening, the growing nature of the demand for recognition in her right to participate as a member of electorate in the government of her country—it seemed to me that no one could suppose that the movement which had obtained such headway could be resisted.

"It also seemed to me that it was the part of wisdom in this country not to make necessary a continuous agitation by a fruitless opposition. I desired that this question which is a fundamental one, with respect to the composition of the electorate should be settled at an early date.

"Feeling that the people were entitled to know my personal position in respect to the proposed Federal amendment I took early occasion to state it. I think the question is one which should be settled as speedily as possible and, therefore, while I did not propose to attempt to add, and it is not add to the platform of my party, I stated my personal conviction that the amendment should be established and ratified."

O. T. Simon Legatee of Estate.  
Otto T. Simon was named sole legatee yesterday for the estate of his late wife, Anne Simon. She left an estate valued at \$2,200.

## Notes of Camp Ordway

By WATSON DAVIS.

Boxing is still one of the most popular sports in the camp. In Battery A a tournament is held often. On Sunday afternoon Kid Boswell fought Walter Smith for four rounds, and won on a foul. Then Leon and Eugene Hutchins, brothers, mixed it up to a draw for three rounds.

Corporal Moffett and Guidon Daniel Herzog also fought three rounds with no decision.

Brig-Gen. Charles H. Ourand, D. C. N. G., retired, who was formerly colonel of the First Regiment, came to the camp recently and visited his former fellow-officers.

Trumpeter Samuel Berlinski is the cynical player in the regimental life, drum and bugle corps. To make it complete, the corps needs only fliers, as it has none at present.

Allan E. Wilson is now regimental supply sergeant. His work is heavy and he needs many men to help him distribute the rations to the companies.

John Pettet brought in William Ben-zette as an addition to the teamsters' ranks in the supply company, and John P. West, another recruit, was secured by P. J. Wrenn.

The fifth tent in Company M now has a phonograph and about a hundred records. Private Ray Ravens brought them to the camp.

More than 70 per cent of the exports of Jamaica come to the United States.

## NEW CASE MARKS 14TH PLAGUE OUTBREAK HERE

Illness of Little Girl Traced to Stay in  
Epidemic District of New  
Jersey.

One new case of infantile paralysis reported to the Board of Health yesterday brings the total number of cases brought to their attention since the outbreak of the New York epidemic up to fourteen. Of these nine have been discharged as cured, two, both adults, have died and the officials now have three cases under surveillance. These three are all very mild, and are expected to recover.

The case reported yesterday was that of Margaret E. Thompson, 3 years old, living at 143 U street southeast. This case is believed to have a direct connection with the New York epidemic. The child was in the infected district of New Jersey, officials say, for twelve days, returning to Washington on August 1. After five days she took ill, but the disease was not recognized until Saturday night.

Two of the earlier cases have also been traced to New York by the Health Department. The other eleven cases are believed to have no connection with the plague in that city.

Dr. William C. Woodward, health officer, and Dr. J. J. Kinyoun, Health Department bacteriologist, who have been studying the disease and the methods of combating it in New York, are expected in Washington tomorrow.

## "Through Fairyland" via The "Shadow" St. Joe

Forty-Mile Optional Steamer Trip  
Without Extra Cost

Absolutely unique in American travel is the steamer trip down the "shadow" St. Joe River of Idaho, declared by some writers to be "a trip through fairyland." It affords 40 miles of incomparable mirror reflections—mountains, forests, clouds and headlands appear as clear and seemingly as real as the originals. This delightful detour between St. Maries, Idaho, and Spokane, Washington, is optional and costs nothing extra.

The stupendous marvel of electrification is another exclusive feature to delight and instruct on your journey to the Pacific North Coast over the

### CHICAGO Milwaukee & St. Paul RAILWAY

Your all-steel train, "The Olympian" or "The Columbian," is drawn over the Great Continental Divide by the world's most powerful electric locomotives. No smoke to obscure your view of the magnificent mountain scenery of the Rockies, no cinders or gas fumes to mar your comfort.

Send for "Shadow" St. Joe folder and other travel literature—address  
G. J. LINCOLN, Gen. Agt.,  
518 Chestnut Street,  
Philadelphia, Pa.

## Resinol first aid for skin troubles

"Will Resinol Ointment really stop this dreadful itching and clear my eczema away?"

"Madam, if you only knew as much about Resinol as doctors do—how safe it is to use, how promptly it acts—you would not doubt, you would use it at once. Usually it stops itching immediately and soon removes every bit of eruption."

Resinol Ointment is so nearly flesh-colored that it can be used on exposed surfaces without attracting undue attention. Sold by all druggists. For sample free, write to Dept. 37-K, Resinol, Baltimore, Md.

## DELIGHTFUL SERVICE TO BUFFALO

The Baltimore and Ohio service to Buffalo and Niagara Falls is delightful—day or night.

At night, "THE BUFFALO," an all-steel train, leaves Washington 9:30 p. m., with through coaches and dining-room sleeping cars, arriving Rochester 7:30 a. m. and Buffalo 7:35 a. m. Dining car serves supper and breakfast.

The day trip affords the scenic beauties of the Susquehanna, Wyoming, and Lehigh Valleys. The "INTERSTATE SPECIAL" leaves Washington 9:30 a. m. and a change of cars is made at Philadelphia, Wayne Junction, to the "BUFFALO EXPRESS," with only eighteen minutes to wait. Excellent service is afforded by both of these trains, and Rochester is reached at 10:15 p. m. and Buffalo at 11:15 p. m.

These trains run in connection with the Reading and Lehigh Valley Railroads. Secure folder from ticket agents.

### BALTIMORE & OHIO
